

CROKII, NOT YOUR AVERAGE **CABBAGE**

CRUNCHY FRESH & TASTY

Experience the crisp that resonates with every bite, the freshness that revitalises the senses, and the flavour that will keep your customers coming back for more.

A **DIFFERENT** LEAFY GREEN

Crokii isn't your average cabbage; it's a semi-flat-shaped game-changer. With a leaf texture reminiscent of Iceberg Lettuce - but a more diverse nutrient profile - and a mild cabbage flavour that's simply exquisite, Crokii stands out on the leafy green market.

A **WHOLESOME** CHOICE

Crokii offers more than just a flavourful taste; it's also a health powerhouse. While being incredibly tasty, cabbage brings a wealth of nutrients to the table, making it a nutritious addition to your offerings.

A remarkable substitute for monotonous Iceberg Lettuce, Crokii introduces an exciting health dimension and variation.

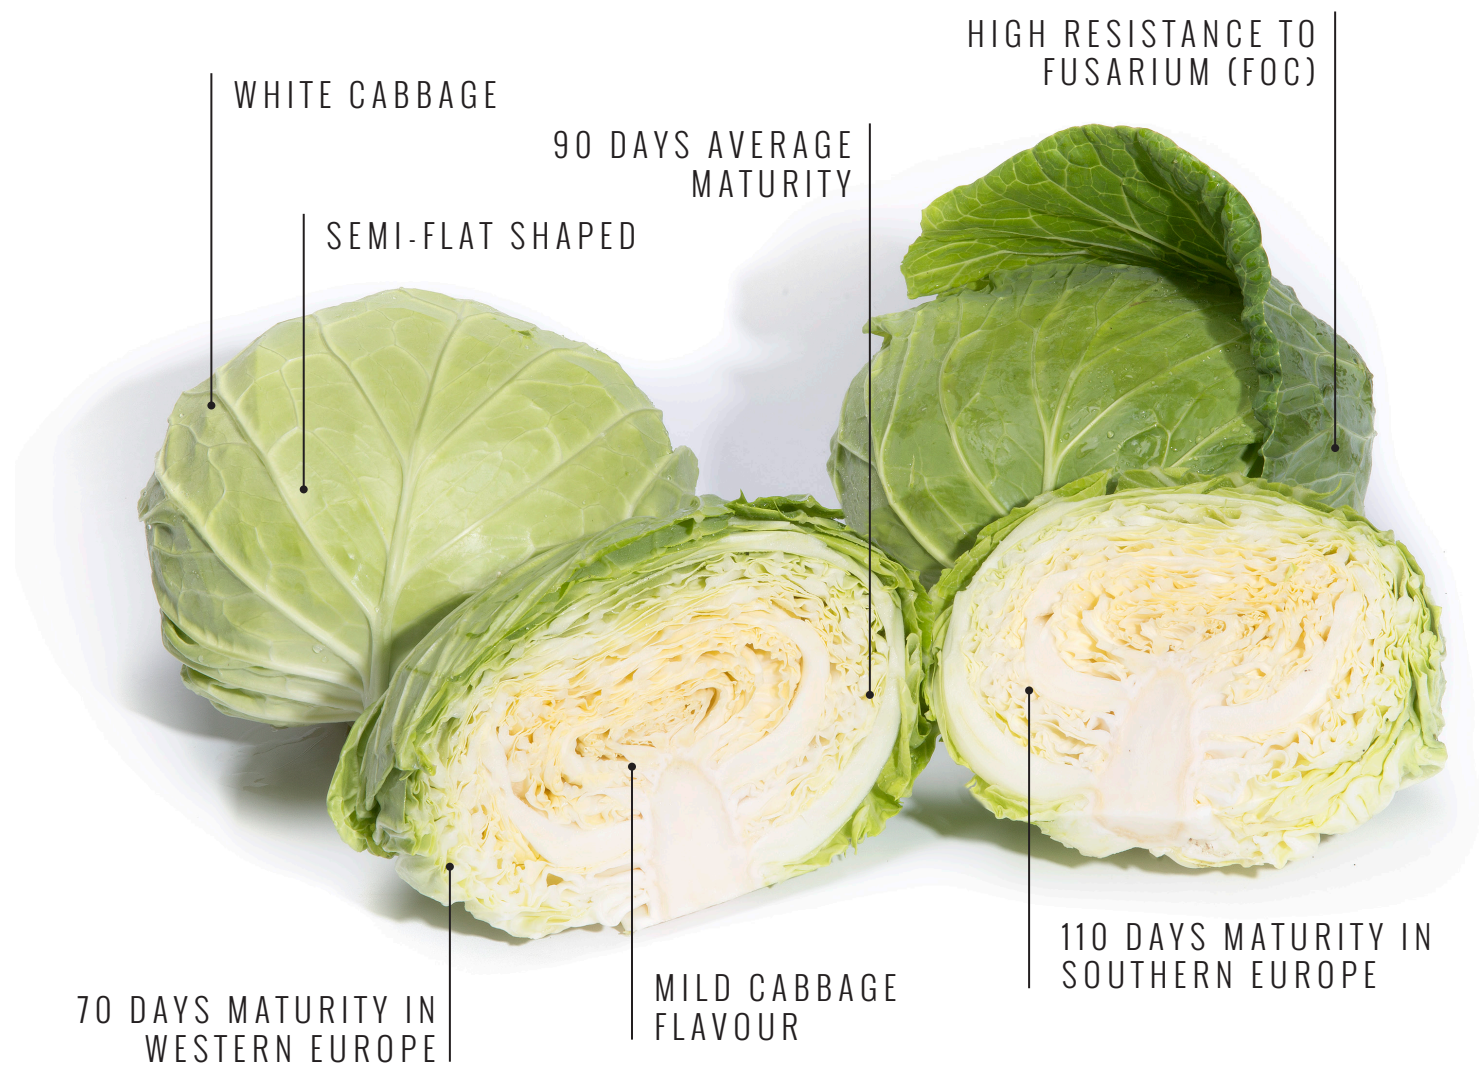

THE **ZERO-WASTE** EFFECT

Beyond its health benefits, Crokii cabbage champions sustainability with a zero-waste impact. Imagine purchasing a single cabbage and unlocking its diverse culinary possibilities.

From cooking to grilling and from raw consumption to imaginative creations, every part of Crokii is flavourful. This versatile usage ensures that nothing goes to waste, translating to a conscientious and eco-friendly approach.
